Education

Vellore Institute of Technology, Vellore
B.Tech in Computer Science

Expected July 2028

D.A.V. Public School
High School

April 2024

Skills

Languages: Java, C++, Python

Web: HTML, CSS, JavaScript, WooCommerce

Tools: Git, Hostinger, DNS Configuration

Experience

Trainee Intern – Programmatic AI
Gurugram, Haryana

May 2025 – July 2025

- Deployed and hosted a custom domain using Hostinger, configuring DNS records and server environment.
- Developed a fully functional e-commerce website using WooCommerce.
- Implemented product catalog, shopping cart, and secure payment gateway integration.

Projects

Animal Species Classification using Deep Learning

- Built an AI model to classify 20 animal species using a dataset of 10,000 images.
- Trained and evaluated the model achieving **97.8% accuracy**.
- Applied image preprocessing and deep learning techniques for improved classification performance.

ChatCraft – Chat Application UI

- Collaborated in a team to design and build the frontend of a chat application.
- Developed a responsive chat interface including message layout, conversation panel, and user interaction components.
- Implemented simulated message responses to demonstrate chat flow and UI functionality.

Relevant Coursework

Data Structures and Algorithms

Object Oriented Programming

Web Development
